Mr. James F. McCarthy,
Medical Branch Division of Biology and Medicine,
United States Atomic Energy Commission,
Washington, D. C.

BMM:JFH

Dear Sir:

We thank you for your letter of January 4th, 1954.

Enclosed herewith a recent clipping from the Miami Herald relative to more Atomic Explosion Tests.

If the Authorities contemplate further tests to determine the effects of Radio Active material on animals at given distances from the explosion, as mentioned in my letter to you of Dec. 11th, 53. I will appreciate the opportunity to supply either the 99½ pure liquified inner substance of the Aloe Leaf or the cream which contains over 73% of the liquid or both.

If such tests would not come under your supervision I will be grateful to you if you will give me the name and address of the person who will conduct the tests.

Yours very truly,

TRUE ALOE PRODUCTS, INC.
